

TEXAS DEPARTMENT OF HEALTH  
AUSTIN TEXAS  
INTER-OFFICE

**TO:** WIC Regional Directors  
WIC Local Agency Directors

**FROM:** Barbara Keir, Director {Original Signed}  
Division of Public Health Nutrition and Education  
Bureau of Nutrition Services

**DATE:** May 9, 2003

**SUBJECT:** Name, Can Size Change: Neosure

---

Similac Neosure has been reformulated with DHA and ARA and renamed Similac Neosure Advance. For several months, both products have been available at the retail level. A combination voucher was created in January to allow clients to purchase either product. Neosure Advance has now completely replaced Neosure in most retail stores and vouchers will no longer need both names. The codes for Neosure (non-Advance) have been inactivated.

In April 2003, Ross announced a change in the can size for Neosure Advance. It will now be available in a 12.8 oz size instead of a 12.9 oz size. Both can sizes will be available for a brief period of time, so a new combination voucher has been created that will allow clients to purchase the 12.9 or 12.8 oz cans.

The new codes will be:

461	Neosure Advance	2 ea	12.9oz - or -12.8oz	\$ 37.24
462	Neosure Advance	4 ea	12.9oz - or- 12.8oz	\$ 74.48
463	Neosure Advance	9 ea	12.9oz - or- 12.8oz	\$167.58
464	Neosure Advance	11 ea	12.9oz - or- 12.8oz	\$204.82

If you have any questions, or require further information, please contact Sandra Brown, Clinical Nutrition Specialist, at 512/458-7111, extension 3830 or email [sandra.brown@tdh.state.tx.us](mailto:sandra.brown@tdh.state.tx.us).
